

Sunmodule⁺ SolarWorld mono black

Produced in Germany,
the hotspot for solar technology

TUV Power controlled:
Lowest measuring tolerance in industry

Sunmodule Plus:
Positive performance tolerance

25 year linear performance warranty and
10 year product warranty

SolarWorld AG relies on Germany as its technology location, thereby ensuring sustainable product quality.

The TUV Rheinland Power controlled inspection mark guarantees that the nominal power indicated for a Sunmodule Plus is inspected at regular intervals and thus ensured. The deviation to TUV is maximum 2 percent.

The positive power tolerance guarantees utmost system efficiency. Only modules achieving or exceeding the designated nominal power in performance tests are dispatched. The power tolerance ranges between -0 Wp and +5 Wp.

With its linear performance warranty covering a period of 25 years, SolarWorld guarantees a maximum performance degradation of 0.7% p.a., a significant added value compared to the two-phase warranties common in the industry. Therefore, the service certificate offers comprehensive protection for your investment in the long term.

• Ammonia resistance tested

- Qualified, IEC 61215
- Safety tested, IEC 61730
- Periodic Inspection
- Power Controlled
